

Supported Internship

action on disability

Life beyond barriers

Let's work together!

**Partnered
with companies
across
West London**

Can you offer work experience placements to Young Disabled People and those with additional needs aged 16-24?

Action on Disability offer Mentor training. Job Coach Support will also be provided.

“ Understanding how to become disability confident and knowing how to support the young person has helped with their own development. ”

Who we are and what is a supported Internship?

We are Action on Disability and in a partnership with local councils and West London College, we run Supported Internships for Disabled Young People and those with additional needs to find paid employment.

The Supported Internships is a one year programme for Disabled Young People aged 16-24 years-old with an EHCP who are ready to progress from education into the workplace.

What can we offer you?

During the work placement, you will have Job Coach support, offering training and awareness. Engagement with the programme will enable you to become a Disability friendly organisation.

How you can get involved

If your organisation can host a work placement for four days a week, five hours a day, then we would love to work with you. You will be supporting our Disabled Young People to build transferable skills and transition from college into the world of paid employment.
